Sample Sustainability Report 2026

Introduction

This is a tiny sample report used by the pdf_pipeline smoke test.
It contains headings, a list, and a table so that every pipeline
step has something to work with.

Environmental Performance

- Emissions intensity reduced by 12% year over year.
- 45% of electricity sourced from renewables.

Social Impact

The company invested 2.1 million USD in community programs
across four regions.

Governance Data

Metric	2024	2025
Renewables	38%	45%
Water use	12.4m	11.1m
